

SLOW DA FLOW Lyrics

Now everybody I knows
Loves to have a good time
And everybody I know
Likes to let their hair down and
unwind.

With a few wines,
a few beers, a few brusksies
Ain't nuttin wrong with that
As long as we drink maturely.

We need 2 show our kids
The safest way to be
Teach 'em that drinkin' is fine
But not excessively.

Plan your nights ahead of time,
Who eva drives is sober
9 times out of 10
You drink and drive, life is over.

Yo, I know, the deal at parties
peer pressure considered cool
only by how much liquor
you consume.

Please believe me,
the truth that is not
Cause some of the coolest dudes
that I eva met
Ain't never touched a drop.

Know when to stop,
know when to say NO!!
And as a true friend
always keep an eye on your bros.

Slow da alcohol flow
and keep focus,
besides, no one wants to wake
to deal with stupid hangovers.

Think before you drink
don't be too quick to hit the
liquor
It don't wash away the problems,
it only makes them bigger.

And if at the time
life sux so much it brings tears,
talk about it
Somebody be there, who cares.
Who'll listen to pick you up
give you love and hugs
I never heard of a drink
that do that stuff.

We must come together
for the benefit of our youth
and preach the do's
and don'ts with booze.

Life is filled with love and pain
But don't pick up the bottle to
soon,
And drink your dreams
down the drain.

Slow da flow y'all,
SLOW DA FLOW!!
