### Shane White and Elaine Ngamu

Kaimahi for Patua Te Ngangara (PTN)

PTN is an initiative established in 2003 and based at Hoani Waititi Marae in West Auckland. For several years they have been presenting community education, working with service providers, supporting whānau, creating and distributing resources on P, researching the effect of 'P' on whānau and much more. They have personal experience dealing with 'P' and keep up-to-date with the ever-changing face of 'P' use in New Zealand.

Shane and Elaine will present and share their skills, knowledge, stories and experiences about whānau strategies for building resilience to cope with the effects of methamphetamine use and abuse.

This presentation is for Kaimahi, Health Professionals and Educators.

**Supported and Sponsored by**

Manaia PHO

Rākau  
Rangatira
